CERTIFICATE OF ANALYSIS

Product Name	Angelica Root Oil
Botanical Name	NA
Category	Reconstituted / Natural Identical
Origin	India
INCI Name	NA
CAS No.	8015-64-3

PHYSICAL & CHEMICAL PROPERTIES

Color & Appearance	Light Pale Yellow To Clear Mobile liquid (est)
Odor	Confirms to Standard
Extraction Method	Steam Distilled
Specific Gravity 20°C	0.870 To 0.920
Refractive Index 20°C	1.468 To 1.485
Optical Rotation	+15.0 To +35.0 °C
Flash Point	> 80°C
Solubility	Insoluble in water & Soluble in Alcohol
Main Constituents	α -pinene , limonene, α -phellandrene

Note :

- This report pertains only to the sample taken by the lot and may differ on a lot to lot basis.
- This is indicative and may be vary according to the raw material and climate variation.

As it is electronically generated document, hence no signature required.
